Skin:	If contact with hot material,cool the burn area by flushing with large amounts of water. DO NOT attempt to remove anything from the burn area.Cover the burn area loosely with a sterile dressing,if available and seek medical attention.
Inhalation:	If inhaled,remove to fresh air. Seek medical aid if cough or other symptoms appear.
Ingestion:	Ingestion of this material is unlikely. If it does occur,watch the person for several days to make sure that partial or complete intestinal blockage does not occur.

Have emergency eyewash station available in area where rigid board are cut.

**5. FIRE-FIGHTING MEASURES AND INFORMATION**

General information:	In case of a fire,oxides of carbon,hydrocarbons, nitrogen oxides, chloride, fumes, and smoke may be generated by thermal decomposition or combustion. As in any fire,wear a self-contained breathing apparatus in pressure-demand,MSHA/NIOSH(approved or equivalent),and full protective gear.
Extinguishing Media:	Use extinguishing media most appropriate for the surrounding fire.

**6. ACCIDENTAL RELEASE MEASURES**

General information:	Ventilate spill area. Minimize dust/fiber generation and accumulation. Do not walk through spilled material. Review Section 5 and Section 7 before proceeding with clean-up. Use proper personal protective equipment as indicated in Section 8.
Spills/Leaks:	Remove all sources of ignition. Stop leak if safe to do so. Collect up,and then place into a suitable container for disposal or recycle. Molten product should be allowed to cool and harden before clean up.
